

PROJECT MANAGEMENT PROFESSIONAL (PMP PREPARATION) - PMI - USA

INTRODUCTION:

Designed to prepare you for the rigorous CAPM & PMP® exam, this course covers the five PMBOK® Guide processes and professional responsibility. Focus on key concepts in each of the processes and professional responsibility. Answer sample questions formatted in a similar manner to the actual exam. Recognize the critical components involved and be ready to sit for your CAPM or PMP®.

OBJECTIVES:

- Define a project, program, and project management and its processes.
- Determine effective ways of integrating project management and general business management in an organization.
- Determine ways to effectively integrate a project across an entire enterprise to reduce the impact of change.
- Determine how ethics, integrity, and objectivity affect project management.
- Discuss ways of effectively communicating through out the Project Lifecycle.
- Determine stakeholders and how they affect the project.
- Describe the Project Management Lifecycle and develop a basic project plan.
- Form an effective project team. Recognize one's own work behavior style and quickly read other people's styles.
